RTM Excel Test

Objective:
This assessment evaluates your ability to analyze operational data, create attendance reports, and apply logic-based calculations.

Instructions:
1. Use the provided data sheets to complete each task.
2. Clearly label all formulas and calculations.
3. Ensure your final file is well-formatted and organized.
4. Use helper columns if needed, but label them properly.
5. Save your file as: [YourName]_RTM_Test.xlsx

Provided Data Sheets:
Backend – Raw attendance/activity data (Arizona Time).
Work Activity – Agent activity logs.
SCH – Contains the agents' scheduled shifts.
Face ID – Holds the login and logout timestamps captured by the face recognition system.
Agents Breaks and Shifts – Scheduled break and shift data.

Task 1 – Attendance Sheet Creation
- Create an Attendance Sheet using data from the 'Backend' sheet.
- Note: Time is in Arizona Time.
- For 7:00 AM and 12:00 AM shifts, determine Login, Logout, and Break times from 'Work Activity'.

Task 2 – Break Adherence
- Calculate Break Adherence using scheduled durations from 'Agents Breaks and Shifts'.
- Highlight cases where breaks exceed or fall short of schedule.

Task 3 – OOA (Out of Adherence) for Breaks
- Calculate total OOA time for breaks.
- Breaks are not allowed during the first 30 minutes and last 30 minutes of the shift.

Task 4 – Logout During Shift
- Detect Logout During Shift events using 'Work Activity'.
- Indicate these occurrences and their durations on the Attendance Sheet.

Bonus (Optional):
- Create a summary table showing Adherence % per Agent.
- Add a chart comparing Planned vs Actual Break Durations.
